SMART FENCE

VIGIFENCE monitor in real-time the electric fence

1 Activate and install VigiFence on the fence

Send alarm through Sigfox network and data analysis

2 Receive a status and alerts by SMS in real-time

3 Stay calm with your electric fence

Receive status of your electric fence directly on your phone

Testimony from Philippe B., breeder in Savoie (FR)

«Before, I discovered malfunctions too late, especially in very distant pasture. I installed VigiFence and now I directly receive alerts on my phone when electric fence failed.»
